UNITED STATES AIR FORCE STATISTICAL DIGEST

This regulation establishes the United States Air Force Statistical Digest as the reference book of USAF official statistics for each fiscal year. It describes the digest's contents and sources of material, and assigns related responsibilities.

1. Contents of the Digest. The digest contains summaries of Air Force statistics on forces, operations, materiel, personnel, training, medical services, finance, security and law enforcement, facilities, transportation, Military Assistance Program (MAP), and related studies and historical events.

2. Source of Material. Most of the data for the digest are obtained by the Data Services Center (AFADS), Directorate of Data Automation, Comptroller of the Air Force, HQ USAF, from the USAF world-wide statistical reporting system. Additional material is furnished AFADS by Air Staff offices, the USAF Historical Division Liaison Office (AFCHO), and major air commands (MAC).

3. Who is Responsible:

a. *AFADSAC:*

(1) Is assigned the primary responsibility for publication of the digest.

(2) Provides detailed instructions and submission dates to contributing offices.

(3) Collects properly prepared statistical data from contributing offices.

(4) Compiles data from directorate statistical reports.

(5) Reviews and acts upon contributors' and users' recommendations for additions, deletions, and changes in data or statistical format; and coordinates these recommendations with Air Force correlative activities.

(6) Reviews, edits, organizes, and consolidates the statistical data for publication in the digest.

(7) Submits final draft to AFDASDC for review and printing.

b. *Air Staff Offices, MAC, and AFCHO.* Air Staff offices and MAC will contribute historical and significant statistical material for the digest. AFCHO will furnish a chronology of historical events of interest to the entire Air Force. These activities will:

(1) Compile and prepare digest material (according to AFADSAC instructions) as statistically and editorially correct summaries which adequately cover the pertinent subject-matter area.

(2) Coordinate digest material with Air Force correlative activities.

(3) Submit all digest material to AFADSAC in the manner, format, and on schedules specified by AFADSAC.

(4) Review each new edition of the digest and recommend changes for future editions.

4. Maintaining Security Classification. Each Air Staff office, each MAC, and the AFCHO will indicate the proper security classification and the appropriate downgrading and declassification group number (as prescribed in AFRs 205–1 and 205–2) for all digest material. Further, the contributing activities will notify HQ USAF (AFADSAC), Wash DC 20330, immediately as to any change in the security classification or in the downgrading and declassification group numbers which affect previously published digest material.

FLIGHT OPERATIONS

PART II

INTRODUCTION

Aircraft flight operations data included in this section are based on statistics submitted in accordance with AFM 65-110, RCS: 1-HAF-A1. These reports are compiled on a physical possession basis with the various activity categories determined by the assignment or status of the aircraft rather than actual use.

The tables provide summary data covering flight operations for operating active USAF aircraft and include aircraft flying hours, utilization, etc. Non-operating active totals are shown as a one-line entry.

DEFINITIONS

OPERATING ACTIVE AIRCRAFT - Aircraft currently and actively engaged in or supporting flying missions. Assignment categories are as follows:

TACTICAL AND COMBAT SUPPORT:

Combat Unit - Aircraft assigned for the direct accomplishment of combat unit operations.

Combat Support - Aircraft assigned for the direct accomplishment of combat support operations.

FLIGHT OPERATIONS (CONTINUED)

DEFINITIONS (CONTINUED)

Test - Aircraft assigned to evaluate the aircraft or its components or for the purpose of research, development, or test of equipment requiring airborne platforms.

MISSION/DESIGN/SERIES - Air Force Regulations 66-11, Designating, Redesignating, and Naming Military Aircraft, dated, 18 September 1962 and 66-11A dated, 15 January 1964 and 66-20, Designating, Redesignating, and Naming Military Rockets and Guided Missiles dated, 27 June 1963 and 66-20A dated, 30 January 1964, establish a uniform system for designating, redesignating, and naming military aircraft and missiles. The phrase Type/Model/Series (T/M/S) has been replaced by Mission/Design/Series (M/D/S) for aircraft and Type/Design/Series (T/D/S) for missiles. For the purpose of this USAF Statistical Digest, Mission/Design/Series will be used for both aircraft and missiles.

NON-OPERATING ACTIVE AIRCRAFT - Aircraft of the following types: In preparation or awaiting preparation for MAP possession; New Production; Enroute; Flyable Storage; Contract Work (for use by Air Force Logistics Command only); Crash Damage; Extended Transient Maintenance (for base use only); Depot Level Work - Field Teams; Performance of Depot Level Maintenance and Repair; Crash Damage (for base use only); Depot Prototyping (for use by Air Force Logistics Command only); Crash Damage - (to be used only on reassignment to Air Force Logistics Command); Contract Work (for AFSC use only); Command Programmed Maintenance; Battle Damage, evacuate to CONUS; Battle Damage, repair by RAM team, Battle Damage, awaiting major components; Battle Damage, evacuate to contractor; and Excess to Command.

PART III

AIRCRAFT ACCIDENTS

INTRODUCTION

The contents of this section present statistics of aircraft accidents which occurred in the United States Air Force, the Air National Guard, and the Air Force Reserve, during FY 1967.

All rates are expressed in number of accidents per 100,000 flying hours.

Final changes to aircraft accident statistics extend over a period of several months; data presented herein are as of 1 September 1967.

Aircraft accident statistics, other than consolidated reports, are unclassified. A complete compilation of accidents and flying experience of all major organizational units of the USAF is considered classified information.

DEFINITIONS

FATAL ACCIDENT - An accident in which one or more persons sustains fatal injury.

FLIGHT ACCIDENT - A mishap which results in damage to, or destruction of one or more USAF aircraft when intent for flight exists (See AFR 127-4).

MAJOR ACCIDENT - A major accident is one in which the aircraft is destroyed or is substantially damaged (See AFR 127-4).

MINOR ACCIDENT - A minor accident is one in which the aircraft receives minor damage as defined in AFR 127-4.

ALL OR TOTAL ACCIDENTS - Total of major and minor accidents.

GROUND ACCIDENTS

INTRODUCTION

The contents of this section are United States Air Force ground accident statistics. Accidents of the Air Force Reserve and the Air National Guard are not included.

DEFINITIONS

ACCIDENT, GROUND - Any accident, which occurs on or off an Air Force installation, base, or site, which involves Air Force military personnel, Air Force civilian personnel on duty, or Air Force property. (See AFR 127-4)

ACCIDENT, PRIVATE MOTOR VEHICLE - A motor vehicle accident involving only non-Air Force motor vehicles, or, if both Air Force and non-Air Force vehicles were involved, the Air Force motor vehicle was not being operated at the time of the accident. Disabling injury to a USAF person is a requisite of this classification. (See AFR 127-4)

ACCIDENT, USAF (GOVERNMENT) MOTOR VEHICLES - An accident involving the operation of an Air Force motor vehicle which results in injury to USAF or non-USAF persons or damage to vehicles or property without regard to ownership. (See AFR 127-4)

COST PER CAPITA

$$\frac{\text{Cost of Injuries + Cost of Fatalities + Cost of Property Damage}}{\text{Total Command Strength (Average Military and Average Civilian)}}$$

INJURY, DISABLING - An injury which results in death, permanent total, permanent partial, or temporary total condition which, in the opinion of a medical authority, makes it impossible for the injured to return to duty at any time during the calendar day following the day of injury.

INJURY, NON-DISABLING - A non-disabling injury is an injury which, although requiring medical attention, would not keep the injured person from performing his assigned duties during the next calendar day or any subsequent day. This injury is generally known as a first-aid case.

RATES - All rates are expressed in number of injuries or accidents per 1,000,000 units of exposure. Units of exposure are mandays for military personnel, manhours for civilian personnel and miles for government motor vehicles.

PART IV

AIRCRAFT AND MISSILES

INTRODUCTION

Information included in this section provides data pertaining to procurement, production, inventory status, deployment, and disposition of USAF aircraft during Fiscal Year 1967. It also includes data on procurement, production, and inventory status of missiles.

The aircraft tables reflect funding by fiscal year, acceptences, inventories by functional distribution, active and inactive, age (in months) distribution, and disposition of aircraft. The missile tables reflect funding by fiscal year, acceptances, functional distribution, and disposition of missiles.

Production data for aircraft and missiles are obtained under the provisions of AF Regulation 84-8, dated 7 July 1964. Additional data may be obtained in the USAF Production Digest SS-N-47 published monthly. Inventory and status data for aircraft and missiles are obtained under the provisions of AF Manual 65-110, dated 17 February 1967. The mission classification (Fighter, Bomber, Tanker, etc.) is generally based upon the mission designator or the prefix preceding the basic mission designator of each aircraft or missile model. A prefix is assigned an aircraft or missile model when the aircraft or missile is modified to perform a function (indicated by prefix) other than its basic designated purpose. Additional statistical data may be obtained in the USAF Aircraft-Missile Digest, SS-A1, published monthly.

DEFINITIONS

ACCEPTANCE - Aircraft, missile, or drone which has been shop-assembled and fully inspected by constituted USAF or Navy production authorities and for which the title, responsibility, and accountability has been assumed by the contracting agency of the recipient.

AIRCRAFT - A heavier-than-air vehicle, designed primarily for flight in the atmosphere, which has incorporated in its prime design the ability and/or requirement for human occupancy.

DRONE - Any aircraft or missile modified or produced to perform the mission of a target for weapon evaluation or crew training and has incorporated into its prime design the ability to be flown by remote control.

INACTIVE - Aircraft, missiles, or drones on loan and bailment (except bailed for test, maintenance, and modification); aircraft, missiles, or drones for which there is no longer a requirement in the active inventory, including those that have been accumulated in excess of possible future needs; and aircraft, missiles, or drones in the process of being dropped from the total inventory and salvage.

GUIDED MISSILE - Unmanned, self-propelled vehicle designed to move in a trajectory or flight path all or partially above the earth's surface and whose trajectory of course while the vehicle is in motion, is capable of being controlled remotely or by homing systems, or by inertial and/or programmed guidance from within. This term does not include space vehicles, space boosters, or Naval torpedoes, but it does include target and reconnaissance drones.

MISSION/DESIGN/SERIES - Air Force Regulations 66-11 dated, 18 September 1962, Designating, Redesignating, and Naming Military Aircraft, and 66-11A dated 5 August 1964 and 66-20, Designating, Redesignating, and Naming Military Rockets and Guided Missiles dated 3 April 1965, and 66-20A dated 30 January 1964, establish a uniform system for designating, redesignating, and naming military aircraft and missiles. The phrase Type/Model/Series(T/M/S) has been replaced by Mission/Design/Series (M/D/S) for aircraft and Type/Design/Series (T/D/S) for missiles. For the purpose of this USAF Statistical Digest, Mission/Design/Series will be used for both aircraft and missiles.

NON-OPERATING ACTIVE - Aircraft, missiles, and drones in preparation or awaiting preparation for possession by units or test activities through any of the logistical processes or supply, maintenance, and modification.

OPERATING ACTIVE - Aircraft, missiles, and drones currently and actively engaged in or supporting flying missions (AFM 65-110).

INTRODUCTION

The tables included in this section provide summary data on the status of the USAF World-wide Vehicle Inventory. Air Force Supply Manual 67-1, Vol VII, Part one dated, 7 March 1962, with changes and Air Force Manual 171-14, dated, 1 September 1960, Volume II, with changes, constitute the basic authority for the system.

Due to changes in the Air Staff needs, the detailed vehicle inventory data are available on an annual basis (30 June).

The tables provide summary data depicting pre-stockage of war consumables. Also included in this section are data on ammunition.

DEFINITIONS

WAR CONSUMABLES - Essential support items used in direct support of aircraft and personnel during wartime operation.

WAR READINESS MATERIEL (WRM) - Quantities of materiel necessary to assure immediate availability of resources to support the initial phase of approved Air Force war plans in the event of an emergency.

TABLE 52 — PRESTOCKAGE AND PER CENT OF REQUIREMENTS OF WAR READINESS MATERIEL (WRM) FOR SELECTED ITEMS, WORLD-WIDE - 25 DEC 1966 AND 25 JUNE 1967

(The data below reflect total assets on hand (including peacetime operating stocks and substitute items at each base but excluding assets in AFLC depots). Status of specific types within each item will vary from the overall percentage shown.)

AIR FORCE EQUIPMENT MANAGEMENT SYSTEM (AFEMS)

INTRODUCTION

The table included in this section provides summary monetary data on the Air Force Equipment Authorization Inventory portion of the USAF Equipment Management System (AFEMS). These semi-annual data have been summarized from the Monetary Report of AF Equipment Authorization Inventory Data (E-AID), RCS: 9-AF-S106 submitted by each major air command to Air Force Logistics Command. The directives governing the system are Part One, Volume IV of the Air Force Supply Manual 67-1, and Volume III, Part 19 of the Air Force Manual 171-14. NOTES: Data as of 15 October 1966 are not available. The data in the table includes AF equipment stored in warehouses.

DEFINITIONS

AUTHORIZATION - A validated equipment requirement established in accordance with current directives for a specific item in a stated quantity for entry in the appropriate column of the E-AID.

BASE EQUIPMENT MANAGEMENT OFFICE (BEMO) - The AF base organization which has responsibility for management of the base equipping program and providing other unit supply support.

COMMAND EQUIPMENT MANAGEMENT OFFICE (CEMO) - The major air command or separate operating agency organization responsible for management of the command equipping program.

EQUIPMENT AUTHORIZATION INVENTORY DATA (E-AID) - This PCAM record reflects equipment authorized and in use/in place, including substitute items. (Replaces Unit Authorization List, Materiel Readiness Authorization List, and certain other accountable records.)

EQUIPMENT STORED IN WAREHOUSE - Those assets stored in the warehouse for which authorized levels have been established and/or those assets excess to requirements for which disposition action has not been received.

IN-PLACE EQUIPMENT - Equipment which is physically placed at specific locations in support of wartime additive missions.

IN-USE EQUIPMENT - Equipment in the possession of the unit or the organization and accounted for on the unit property records. This includes item actually in the hands of the unit regardless of condition.

ORGANIZATIONAL EQUIPMENT - All equipment items authorized to or on hand in an organization or base to support its mission (peace and war). Organizational equipment is divided into four types - Mobility Equipment, Support Equipment, Joint-Use Equipment, and War Readiness Materiel Equipment.

MATERIEL (CONTINUED)

SURPLUS AND EXCESS MATERIEL

INTRODUCTION

The primary objective of the USAF Disposal Program is to remove inactive, obsolete, and nonrequired personal property from active Air Force inventories in a timely and efficient manner. This is accomplished through redistribution and/or marketing procedures as set forth in Volume VI, AFM 67-1 and AFM 67-4.

The dollar value at which materiel is carried on inventory records is for monetary accounting purposes. It may or may not be based upon the original acquisition cost and can be estimated if not available. This is not an appraised value.

Statistics included herein have been compiled from Excess and Surplus Property Reports RCS: DD-S&L(Q)369. (Air Force source, Excess and Surplus Property Report, RCS: AF-S57, and Scrap and Waste Report, RCS: (AF-S13).

DEFINITIONS

DISPOSAL - The redistribution of AF excess and the disposition of surplus property (including scrap) by transfer, donation, sale, destruction, and abandonment.

DONABLE PROPERTY - Surplus equipment, materials, books, or other surplus including surplus property in working capital funds, stock fund items, or similar management funds.

EXCESS PROPERTY - Any property under the control of any federal agency which is not required for its need and the discharge of its responsibilities.

GENERATIONS - Property received to the accounts of AF Property Disposal Officers (regardless of turn-in activity, i.e. Air Force, other Military Services and other agencies or activities authorized to use AF disposal facilities) which is being processed for final disposal by Air Force Redistribution and Marketing activities.

PERSONAL PROPERTY - Property of any kind (equipment, supplies, etc.) or any interest therein, acquired by the Air Force. Excludes real property and records of the Federal Government.

SCRAP - Personal property, other than waste, which has no reasonable prospect of sale, or which appears to have no market value other than its basic material content.

SURPLUS PROPERTY - Personal property which, through screening or other means, has been determined to be in excess to all federal agency requirements.

TRANSPORTATION

PART V

INTRODUCTION

The data included in this section represent the actual movement of people and things world-wide.

Military Airlift Command (MAC) data shown herein represent movement by the MAC Industrial Fund of traffic for all services and to a minor extent for other agencies. The MAC Industrial Fund began operation at the beginning of Fiscal Year 1960.

Ocean Transportation as shown herein represents all traffic arranged for by the Military Sea Transportation Service (MSTS) on the following types of ships:

CARGO - (1) MSTS Ships: MSTS operated passenger and cargo vessels and MSTS contractor operated vessels.
(2) Commercial ships on time or voyage charter, shipping contract, and berth term.
(3) Maritime administration ships.
(4) Navy ships.

PASSENGER - MSTS nucleus passenger ships, contract space on commercial vessels, and space on cargo vessels as required.

Tables reflecting movements out of AF Continental US (CONUS) installations via commercial transportation refer to traffic where movement is accomplished by a bill of lading or a transportation request. Data as shown herein include movements by Air Force for other services and do not include movements for the Air Force by other services. Data are for the period in which traffic moved rather than for the period of payment for transportation service.

DEFINITIONS

LONG TON - 2,240 pounds.

MEASUREMENT TON (M/T) - Unit of volume displacing 40 cubic fee of space.

SPACE AVAILABLE TRAVEL - Space which is surplus after all space required traffic has been accomodated and which would otherwise be unused.

SPACE REQUIRED TRAVEL - Transportation space against which a requirement was accepted and an assignment made.

MILITARY ASSISTANCE PROGRAM
(MAP)

PART VII

INTRODUCTION

The tables in this section provide all available summary data on the Military Assistance Program administered by the Air Force. Those tables reflecting Military Assistance Grant Aid Program aircraft, inventory, attrition, and hours flown, include only those models supported under MAP. FWMAF/MASF aircraft data reflected in separate tables. The data were compiled from progress reports from major commands on materiel deliveries and training accomplishment and from Military Assistance Advisory Groups or comparable organizations in each participating country. The Mutual Defense Assistance Act of 1947 enacted into law on 6 October 1949 established Military Assistance; hence, the captions FY 1950 through FY 1967 as used in the tables indicate an accumulation of data from the date of the enactment. This does not necessarily mean that the incipient date for all countries was FY 1950.

DEFINITIONS

AIRCRAFT ATTRITION - Aircraft lost from MAP inventories by reason of accident, obsolescence, or in combat.

GRANT AID - Military Assistance rendered under the authority of the Foreign Assistance Act of 1961, as amended, for which the United States receives no reimbursement.

FWMAF - Free World Military Assistance Forces.

MASF - Military Assistance Service Funded Program.

MAP AIRCRAFT - Aircraft in foreign countries provided by the USAF under Military Assistance Program.

MEDICAL

PART X

DEFINITIONS

ADMISSION - When applied to: (1) Active duty military personnel, the term indicates that the individual has been placed under treatment as a quarters patient or as a hospital bed occupant on an excused-from-duty basis. (2) A civilian patient, the term indicates that a patient has entered a hospital as a bed occupant, for some form of treatment.

ADMISSION RATE - The admission rate is a measure which indicates the frequency with which military patients are excused from duty for medical reasons. Hence, the admission rate is based on admissions from duty. These are annual admission rates, which show the number of admissions that would occur during a 365 day year if admissions occurred throughout an entire year at the same frequency as in the period of observation. The annual admission rate per thousand average strength is computed as follows:

$$\frac{\text{Number of admissions during the period X Number of such periods in a year X 1,000}}{\text{Mean strength during the period}}$$

AIR FORCE PERSONNEL - Air Force military personnel on extended active duty, not including Air Force Academy cadets or personnel on active duty for training.

AVERAGE OCCUPIED BEDS - The average of the numbers of patients occupying beds in hospitals and Class "A" dispensaries as of midnight of each day in the period.

COMPLETE PHYSICAL EXAMINATIONS - Complete physical examinations include only those recorded on the Report of Medical Examination (Standard Form 88); physical inspections of food handlers or barbers are not included nor are examinations of personnel who are ill.

HOSPITALIZED RATIO - The hospitalized ratio is the weighted average of the proportions of strength in an inpatient status each day (of the period for which it is computed). It differs from the noneffective ratio in that it includes only bed occupancy days in hospital or Class "A" dispensary. The ratio is computed per 100 strength as follows:

$$\frac{\text{Number of bed occupancy days in the period X 100}}{\text{Mean strength X Number of calendar days in the period}}$$

INPATIENT ADMISSION - The enrollment of a patient for care on the wards of a hospital or Class "A" dispensary.

NONEFFECTIVE RATIO - The medical noneffective ratio is the weighted average of the proportions of strength not available for duty, for medical reasons, each day (of the period for which it is computed). Such persons may be under treatment as inpatients, in quarters, on sick leave, or AWOL from a patient status. The ratio is computed for a specified period, per 100 strength as follows:

$$\frac{\text{Number of sick days in period X 100}}{\text{Mean strength X Number of calendar days in the period}}$$

OPERATING BEDS - This term applies to beds with staff and equipment ready for treatment of patients, whether in a hospital or a Class "A" dispensary.

OUTPATIENT VISITS - One visit is counted each time an outpatient or quarters patient received advice and/or treatment at an organized clinic or specialty service. More than one visit per patient may be counted on a given day. For 1960 and prior years (data shown in previous reports) only one visit was counted for each outpatient who presented himself or was visited for medical advice and/or treatment on a given day.

PHYSIOLOGICAL TRAINING - Program of instruction to familiarize the flyer with the physiological and psychological stresses of modern military aviation and space flight, and to prepare him to meet these stresses successfully. Physiological training officers are also responsible for training air crew members in functions of personnel protective equipment which is used in flight, escape from aircraft, and survival.

SECURITY AND MILITARY DISCIPLINE

PART XI

SECURITY POLICE

INTRODUCTION

Security Police statistics are collected quarterly world-wide for use in management as well as the determination of the status of discipline within the Air Force. In general, they include selected data regarding military and civil type offenses and the administration of the correction program. All data depicted in this table is derived from reports required by AFR 125-17. Information regarding "Security Incidents - Inquiries or Investigations", contained in the FY 1966 Statistical Digest are not contained in this table because the data is no longer reported to this headquarters. Responsibility for monitoring Security incidents has been delegated to the major air commands. Data pertaining to "Personnel Security Determinations" has been realigned to differentiate between military and civilian determinations. All entries depicting military offenses represent only those offenses for which action was taken under Uniform Code of Military Justice (UCMJ).

DEFINITIONS

ABSENCE WITHOUT LEAVE (AWOL). Status or the offense of any member of the Air Force who, without authority:
(1) Fails to go to his appointed place of duty at the time prescribed; or
(2) Goes from that place; or
(3) Absents himself or remains absent from his unit, organization, or place of duty at which he is required to be at the time prescribed (10 U.S.C. 886). (See AFR 35-73)

CUSTODY GRADE - Prisoners are classified as being in a minimum, medium, or maximum custody grade in accordance with the criteria outlined in (1), (2) and (3) below. The initial classification will be determined by the correction officer based upon the nature of the offense, demeanor of the prisoner upon admission, and any other pertinent information available.

(1) Minimum custody prisoners are those who are sufficiently stable, dependable, and trustworthy as to require little or no custodial supervision.

SECURITY AND MILITARY DISCIPLINE (CONTINUED)

SECURITY POLICE (CONTINUED)

(2) Medium custody prisoners are those who require continual supervision, but whose escape would not threaten life, limb, or property.

(3) Maximum custody prisoners are those whose escape would present a distinct threat to the safety of life, limb, or property, and who require special custodial controls and handling.

CASUAL STATUS - A prisoner held at an installation Correction facility awaiting:

(1) Disposition instructions from another Command; or

(2) If disposition instructions have been received, awaiting transfer to a designated Confinement facility.

CORRECTIONAL CUSTODY - The physical restraint of a person during duty or non duty hours, or both, imposed as a punishment under Article 15, UCMJ, and may include extra duties, fatigue duties, or hard labor. (Addendum to the Manual for Courts Martial, United States 1951, January 1963)

SECURITY AND DISCIPLINE (CONTINUED)

THE JUDGE ADVOCATE GENERAL

INTRODUCTION

The Office of The Judge Advocate General provides statistical data reflecting trial of offenders against military law. The statistics are derived from AF Form 214 "Court-Martial and Article 15 Activities Report", AFR 111-3, submitted quarterly by each major command exercising general court-martial jurisdiction.

Table 165 reflects the number of military persons, subject to court-martial jurisdiction pursuant to Uniform Code of Military Justice, Article 2, who were tried by each type of court-martial; and the number of military persons receiving non-judicial punishment, for minor offenses, under Article 15.

Table 164 provides the over-all rates, per 1000 average assigned and attached military strength, for all persons tried in all types of courts-martial, and the rates, on the same basis, for those persons receiving non-judicial punishment.

DEFINITIONS

General Court-Martial - A general court-martial may adjudge a dishonorable or bad conduct discharge as part of the sentence.

Special(BCD)Court-Martial - A special court-martial which adjudges a bad conduct discharge as part of the sentence.

Special(Non-BCD)Court-Martial - A special court-martial which does not adjudge a discharge as part of the sentence, but may adjudge as much as six months confinement.

Summary Court-Martial - A summary court-martial may not adjudge a discharge or confinement for more than one month.

Non-judicial Punishment - Punishment imposed for minor offenses, by the commanding officer, without the intervention of a court-martial, which does not become a permanent part of the offender's military record.

INTRODUCTION

This section reflects the funding operations of the various Air Force appropriations and/or funds with the respective major programs for the fiscal years indicated in the title of each table.

DEFINITIONS

APPROPRIATION - An authorization by an Act of Congress to incur obligations for specified purposes and to make payments therefor out of the Treasury.

APPROPRIATION ACCOUNT - An account established to make amounts available for obligation and expenditure from the Treasury. Appropriation accounts include not only accounts to which money is appropriated, but also revolving funds, working funds, trust funds, etc. Appropriation accounts do not include official deposit funds.

APPROPRIATION REIMBURSEMENT - Amounts collected or to be collected for commodities, work or services furnished or to be furnished to another appropriation or fund or to an individual, firm or corporation which by law may be credited to an appropriation or fund account. Amounts to be collected include accounts receivable, reimbursements earned but not billed and amounts anticipated for the remainder of the year. They may also include inter-agency orders accepted and on hand for which delivery has not been made to the extent that this order is a valid obligation of this ordering agency and the collection will be credited to the appropriation being reported.

BUDGET PROGRAM - A subdivision established under an appropriation to identify a significiant segment of Air Force operations.

DISBURSEMENT - The amount of expenditure checks issued and cash payments made, net of refunds received. Disbursements shall include all advances.

EXPENDITURE - (1) In Federal Government, means disbursement. (2) Outside the Federal Government, means the same as accrued expenditure.

FUND - A sum of money or other resource authorized by law to be set aside and to be used or expended only for specified purposes.

OBLIGATION - The amount of an order placed, contract awarded, or service received, or any transaction which establishes a legal requirement for the ultimate disbursement of funds.

OBLIGATIONS INCURRED - Amounts of orders placed, contracts awarded, services received, and similar transactions during a given period requiring future payment of money.

PROGRAM YEAR - A concept of accounting for funds, obligations, and expenditures under a no year appropriation by indentification of transactions in fiscal year segments identified by the fiscal year in which individual items were planned for obligation, without regard to the fiscal year in which the transactions were actually accomplished.

PROJECT ACCOUNT CLASSIFICATION - In appropriation and fund accounting an approved system of subdivision of an appropriation or fund for administrative use.

UNLIQUIDATED OBLIGATION - An obligation incurred for which payment has not been made.

UNOBLIGATED BALANCE - That portion of an authorization which has not been obligated.
